PROPOSAL

SANTA MONICA/2026

This project is inspired by Japanese car magazines and the coastal atmosphere of Santa Monica.

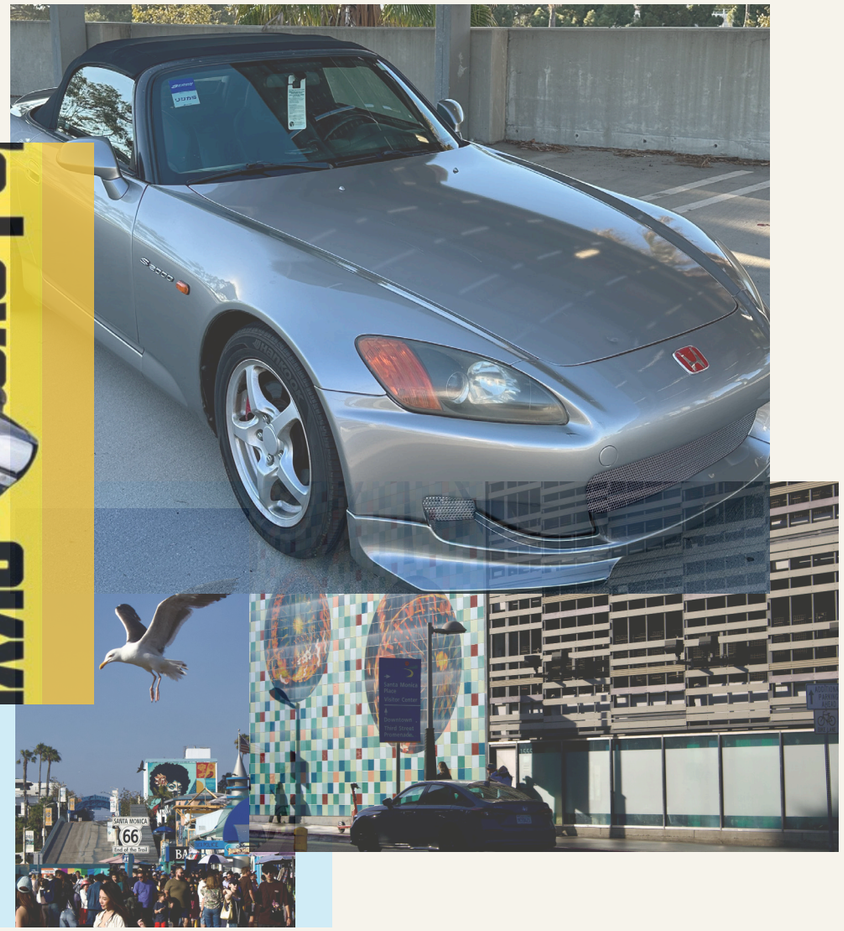

I wanted to combine cars, the beach, and retro graphic design in one poster. I used bold typography, geometric shapes, and bright colors to create a nostalgic maga-zine-style look.

REFERENCES

参考資料

These images inspired the colors, typography, and overall style of my Santa Monica poster.

SANTA MONICA 66 End of the Trail

PACIFIC COAST HIGHWAY

There is something special about driving along the California coast with the top down. The ocean breeze, the sound of the engine, and the endless views of the Pacific make every mile feel different. From Santa Monica to Malibu, the PCH is more than just a road. It is a place to enjoy the sunshine and freedom of driving.

A DAY IN SANTA MONICA

カリフォルニアの休日、

Santa Monica is one of the most iconic places on the California coast. With its famous pier, colorful streets, and beautiful ocean views, the city has a unique atmosphere. On a sunny afternoon, music from the pier mixes with the sound of the waves, while people walk along the beach and enjoy the California sunshine.
